

TREE ADOPTION & SEAT SPONSORSHIP

A uniquely personal
celebration or commemoration

**THE YORKSHIRE
ARBORETUM**

KEW AND CASTLE HOWARD

www.yorkshirearboretum.org

Charity Number: 1044931

Adopting a tree or sponsoring a bench is the perfect way to celebrate or commemorate loved ones, marriages, births, anniversaries and other special occasions.

Your gift will also support the work of The Yorkshire Arboretum.

Tree Adoption

Trees can be long lasting and poignant reminders of special people and events. Becoming the sponsor of one of our collection specimens

enables you to create a unique and highly personal relationship with your chosen tree at the Yorkshire Arboretum.

A range of trees in a variety of locations is available and we'll be on hand to help with your choice by explaining the characteristics of each tree. Once your adoption is complete, your tree will be marked with a commemorative plaque.

Sponsor a Bench

The benches located around the arboretum offer visitors the opportunity to enjoy peaceful reflection, far away from the stress of daily life.

Sponsoring a bench, whether in celebration or commemoration, creates a special

relationship with a much-loved view or favourite spot and offers all our visitors a welcome place to rest during their time here. Our custom-made benches can be placed in your chosen location and marked with a plaque.

All tree adoptions and bench sponsorships are recorded in the registers displayed in our Visitor Centre and your entry can be accompanied by a few personalised words if desired.

Interment of Ashes

We can arrange to have your loved one's ashes interred at the site of your commemorative tree or elsewhere in the arboretum.

We can arrange a convenient time with you for your ceremony to take place out of hours. In addition to the interment, a member of staff will be present to facilitate your visit.

Contact us for minimum donations

KEEPING THE ARBORETUM GROWING

As a small, independent charitable trust, the Yorkshire Arboretum depends on donations and fundraising to support its commitment to inspire, educate and conserve.

Whether you value the arboretum for its unique plant collection, its biodiversity or simply as a beautiful and peaceful place to visit, making the generous decision to remember us in your will is an effective way to support our work and ensure this very special place is available for future generations to enjoy as you have.
